Site

The Walnut tree, as marked on the plan and seen in the photographs, is situated in the rear garden of the property. It is not publicly visible.

A site visit was not deemed necessary to determine the appropriateness of the proposed works.

The location is also within the Fortis Green Conservation Area. This protects every tree with a diameter at breast height (taken at 1.5m) >75mm.

Tree works proposed.

Issues

I hold no objections to the repeat proposed pruning works to prune back to the most previous recent points.

Walnuts need to be pruned mid-summer to late Autumn as they have a tendency to bleed.

Recommendation

No Objection
