Site

The various trees as listed above, marked on the plan, and seen in the photographs, are situated in the rear garden of the property. They are not publicly visible but can be seen from the rear service ally from Clarence Road N22.

A site visit was not deemed necessary to determine the appropriateness of the proposed works.

The location is also within the Bounds Green Conservation Area. This protects every tree with a diameter at breast height (taken at 1.5m) >75mm.

Proposal

Tree works proposed.

T1 - Eucalyptus - Reduce to the previous points of reduction and retain some furnishings for regrowth structure

T2 - Conifer - Remove as 50 cm away from foundations of garage and has been causing a lot of movement, cracking and lifting of concrete structure

T3 - Silver Birch - Remove two lowest limbs as they are too substantial and overdeveloped in relation to the rest of the canopy. Thin crown by 15%

T 4 - Remove Bay tree that is a bit of a nuisance as grows uncontrollably at the base and spreading into the neighbours.

Issues

I hold no objections to the proposed pruning works.

The specification is within good arboricultural practice and husbandry.

The removal of T2 Conifer is due to the tree being too close to the structure and not worthy of a Tree Preservation Order.

Recommendation

No Objection

Informative: There is a duty under Section 213 of the Town and Country Planning Act 1990 (as amended) to plant replacement trees for the removal of trees, and also dead, dying or dangerous.
