A site visit was deemed necessary to determine the appropriateness of the proposed works (06/03/2024 at 2pm approximately).

The trees are protected by a Tree Preservation Order (TPO)

Proposal

Tree works proposed.

Works to trees protected by a Group TPO.

G1: Group of Sycamore: Approximately 16.00m-18.00m: Reduce lateral and sub lateral growth growing over boundary and beginning to encroach over glass house, back up to approximately 2.50m, selecting viable secondary furnishing growth where practicable and pruning back to growth points where not. Remove one larger low branch approximately 15.-20cm diameter, which protrudes from the group crown line. Control encroachment/general maintenance.

Issues

I hold no objections to the reasonable pruning of pulling back the edge line Sycamore branches from the adjacent functional glass houses.

Note the trees are private trees from the adjacent land. Permission to enter the land and carry out any works will be required. If a MEWP is used as a courtesy still, the adjacent landowner should still be notified

Recommendation

No Objection
