Site

The Cherry and Laurel trees T1 & T2, as marked on the plan, are situated in the rear garden of the property. They are not publicly visible.

A site visit was not deemed necessary to determine the appropriateness of the proposed works.

The location is also within the Crouch End Conservation Area. This protects every tree with a diameter at breast height (taken at 1.5m) >75mm.

Proposal

Tree works proposed.

T1: Mature Cherry: Approximately 17.00m: Reduce back to previous and most recent reduction points, up to approximately 1.50m. Thin crown density throughout by 20%. Remove dead wood. General maintenance.

T2: Mature Laurel: Approximately 6.00m: Growing into the crown of T1: Reduce crown by approximately 1.50m. shape and balance. General maintenance/control encroachment.

Issues

I hold no objections to the reasonable repeat proposed pruning works to T1 and the reduction of T2.

The specification is within good arboricultural practice, husbandry and standard.

Recommendation

No Objection
