Feedback from Cameron Sturges - Planning Officer:

Based on the scheme as presented and discussions at the subject site, the proposed development is in accordance Policy DM7, as the size of the site would comfortably accommodate the proposed dwelling. The scheme is sensitive to natural features of the site and includes design and architectural features sympathetic to the character of the area, adjacent buildings and the street-scene.

The development site offers an opportunity for improvement by removing the unsightly structures at the site and, potentially, by erecting a sensitively designed new building subordinate to the scale and appearance of its surrounds.

No objections are raised against the choice of materials and design here. The pitched roof design appears better suited and more complimentary to the surrounding residential area.

The proposed dwelling mirrors a slightly larger footprint and plot ratio to the previously consented scheme HGY/2020/2762. The proposed dwelling would essentially be situated on approximately 50% of the plot, generously set back from all neighbouring boundaries, including the street. The proposal has a generous portion of land around the building which is considered an acceptable building to garden plot ratio. Furthermore, the dwelling in this scheme has also maintained its L-shape form, and its siting would be very similar to the previous scheme.

The proposed dwelling would have an internal floor space which comfortably exceeds the 90 sq.m minimum floor space requirements of the London Plan for a 3-bedroom 4-person 3-storey dwelling. All habitable rooms would benefit from satisfactory outlook and light with sufficient internal storage space. A large rear garden area would provide a satisfactory standard and quantity of external amenity space. The proposal would therefore provide a satisfactory standard of accommodation for future occupants

The windows are mainly contained to the southern elevation facing the rear gardens/Bidwell Gardens and the north/northeastern elevation facing the street. Sufficient setbacks are also provided between neighbouring properties and much of the landscaping on site is proposed to be retained which would further obscure any views into rear gardens. It is therefore not expected that any overlooking would be caused by this development. The siting, orientation and separation distances are sufficient to ensure that the windows would not result in an unacceptable loss of privacy to these neighbouring occupants.

'Dear Ellen,

In respect of your points about a biodiversity and geological reports, biodiversity net gain (BNG) does not come into effect until April this year and as such if the application is submitted within the next 2 months, this is not required....'

Matthew Gunning

Authority Employee/Member

With respect to the Authority, is the applicant and/or agent one of the following:
(a) a member of staff
(b) an elected member
(c) related to a member of staff
(d) related to an elected member

It is an important principle of decision-making that the process is open and transparent.

For the purposes of this question, "related to" means related, by birth or otherwise, closely enough that a fair-minded and informed observer, having considered the facts, would conclude that there was bias on the part of the decision-maker in the Local Planning Authority.
