Dear sirs

**Notice to carry out tree works in a conservation area
11 Crescent Road, London N8 8AZ**

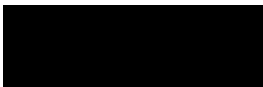

We wrote to you on 2 November 2023 regarding the removal of two lime trees from our garden.

We are re-enclosing a copy of the letter previously sent.

The proposed work is now planned for the end of May 2024.

If you have any questions or concerns, please let us know.

Kind regards

A black rectangular box redacting the signature of the sender.

Your faithfully

Mr & Mrs Patsalides

2 November 2023

Dear sirs

**Notice to carry out tree works in a conservation area
11 Crescent Road, London N8 8AZ**

We are the owners of the above-named property.

As per instructions noted under <https://new.haringey.gov.uk/environment/trees-old/tree-preservation-orders-tpos/tree-work-a-conservation-area> we are providing you with 6 weeks' notice from the date of this letter that we intend to remove two lime trees from our garden and to replace them with two cherry blossom trees.

As the owners of 11 Crescent Road, we understand the importance of maintaining the character and beauty of our conservation area, and we are committed to preserving its unique charm.

As you are aware, lime trees sucker profusely from the base of the trunk, making them look untidy and secondly, they are highly attractive to aphids, the sugary secretion from which rains down on anything beneath.

It is unfortunate that such trees have been planted so frequently as street trees in the area. We annually have our two lime trees pruned back to restrict their sugary secretions and this results in trees with minimal aesthetic appeal.

To maintain the beauty of the conservation area, our plans are the removal of these two lime trees. In their place, we plan to plant two cherry blossom trees, known for their ornamental value, vibrant spring blooms, and their ability to thrive in our local climate.

Cherry blossom trees are renowned for their contribution to the visual appeal of any landscape, and they will undoubtedly complement the existing character of the conservation area.

We assure you that the removal and replacement of these trees will be carried out sympathetically and that the work will be performed by qualified professionals to ensure the safe and proper removal and planting of trees.

We hope that you will support the removal of the existing lime trees and the subsequent planting of cherry blossom trees at 11 Crescent Road, which will improve the aesthetics of the area.

If you require any additional information or need to conduct a site visit to assess the situation, please do not hesitate to contact us [REDACTED] We are more than willing to provide any further details or meet with the relevant authorities to discuss this matter in person.

We believe that replacing the lime trees with cherry blossom trees will enhance the surrounding area.

We trust that you will support our plans.

To assist you we enclose a picture of the 2 lime trees and a plan of the site.

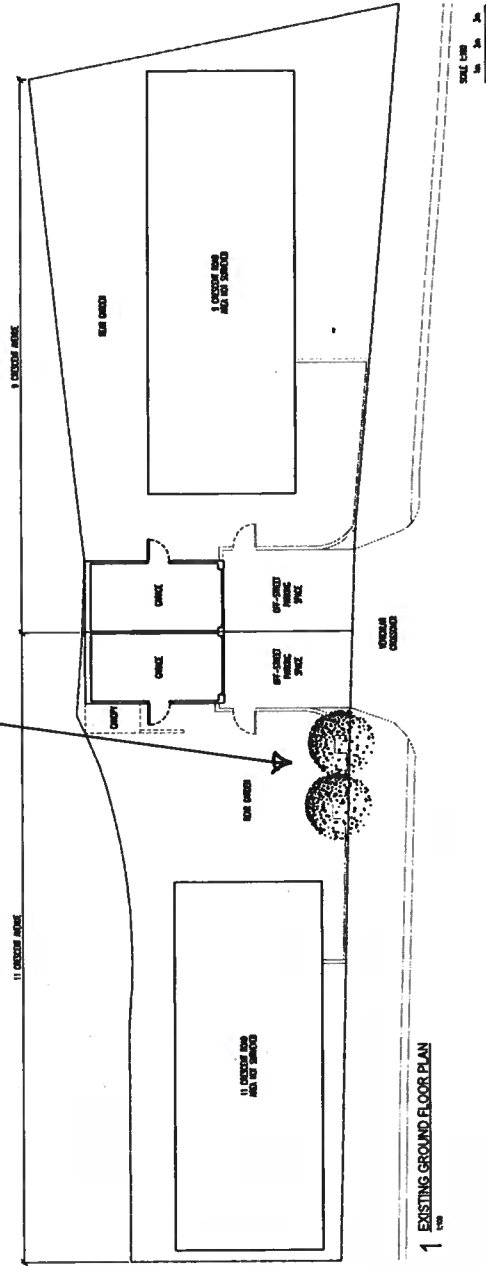

Kind regards

[REDACTED]

Your faithfully

Mr & Mrs Patsalides

Proposal is to
remove the 2
line trees and to replace
them with 2 cherry blossom
trees.
