Site

The Pear tree T1, as marked on the plan and seen in the photograph, is situated in the rear garden of the property. It is not publicly visible.

A site visit was not deemed necessary to determine the appropriateness of the proposed works.

The location is also within the Muswell Hill Conservation Area. This protects every tree with a diameter at breast height (taken at 1.5m) >75mm.

Proposal

Tree works proposed.

(T1) Pear - Reduce height down by 1.5-2m and spread by 1m for general tree maintenance and to access more light/room in the garden area.

Issues

I hold no objection to the reasonable works.

The specification is within good arboricultural practice and husbandry.

Pear trees generally respond well from such reduction works.

Recommendation

No Objection
