Site

The Lime *Tilia* spp. trees T1 & T2 are situated in the front garden of the property. They are publicly visible.

A site visit was not deemed necessary to determine the appropriateness of the proposed works.

The location is also within the Crouch End Conservation Area. This protects every tree with a diameter at breast height (taken at 1.5m) >75mm.

Proposal

Tree works proposed.

T1 and T2- Two Lime trees (18m)- crown reduction back to most recent pruning points (approximately 3m reduction).

Issues

I hold no objections to the repeat, reasonable pruning works to reduce back to the most recent previous points (high pollard).

The specification is within good arboricultural practice, husbandry and standard.

Lime trees generally respond well to such rection works.

Recommendation

No Objection
