| <b>Application date</b> | 04/03/2024          |                                          |
| <b>Tree Inspector</b>   | DM                  | <b>Date:</b> 27 <sup>th</sup> March 2024 |

## **Site**

The mature Lombardy Poplar tree, as seen in the photographs, and marked on the plan, is situated in the grounds of the cemetery. It is publicly visible.

A site visit was not deemed necessary to determine the appropriateness of the proposed works.

The location is also within the Bruce Castle Conservation Area. This protects every tree with a diameter at breast height (taken at 1.5m) >75mm.

## **Proposal**

Tree works proposed.

1 Fallen Lombardi Poplar , resting on adjacent Sycamore tree, fell to ground level.

The tree is unclimbable in a very bad condition.

## **Issues**

I hold no objection to the safe removal of the failed Lombardy Poplar tree that has hung into the adjacent Sycamore tree, and has become a hazard.

The tree is a past reduction. Reducing Poplars is not ideal as vascular decay and pathogens can gain entry. Poplar wood is notoriously weak and does not compartmentalize well. Poplars are also short lived.

This tree could have been removed under a five day notice however, it appears wedged tight.

There is a Friends Group for the site. It is strongly advised, as a courtesy to inform the Friends group: [tottenhamcemeteryfriends@gmail.com](mailto:tottenhamcemeteryfriends@gmail.com)

Ward Members will be updated.

## **Recommendation**

### **No Objection**

**Informative:** There is a duty under Section 213 of the Town and Country Planning Act 1990 (as amended) to plant replacement trees for the removal of trees, and also dead, dying or dangerous.
