

PROTECTED TREE REPORT (TREE WORKS)

Haringey Council, L4,
Alexandra House, Station
Road N22 7TY

Application number	HGY/2024/0561
Application type	Conservation Area Notification
Site Address:	277 Gladstone Avenue, Wood Green, London, N22 6LD
Proposal	Sycamore is covering all of my garden and most of neighbours' gardens. Neighbours are hacking of pieces and throwing them over the fence - which is damaging the tree. Tree is located at the back of the garden but Branches of the tree are now touching the back of the house. According to the tree surgeon, it needs a 30% crown reduction.

RECOMMENDATION:	No Objection	
Application date	04/03/2024	
Tree Inspector	DM	Date: 3 rd April 2024

Site

The medium to large size tree is an Ash and not a Sycamore as labelled above by mistake. The tree is situated, as marked on the plan, and seen in the photograph, in the rear garden of the property. It is not publicly visible.

A site visit was not deemed necessary to determine the appropriateness of the proposed works.

The location is also within the Noel Park Conservation Area. This protects every tree with a diameter at breast height (taken at 1.5m) >75mm.

Proposal

Tree works proposed.

Sycamore is covering all of my garden and most of neighbours' gardens. Neighbours are hacking of pieces and throwing them over the fence - which is damaging the tree. Tree is located at the back of the garden but Branches of the tree are now touching the back of the house.

According to the tree surgeon, it needs a 30% crown reduction.

Issues

I hold no objections to the proposed reasonable pruning works.

The applicant has since confirmed that the 30% crown reduction is an overall crown reduction by up to 3m.

The specification is within good arboricultural standard practice, and husbandry.

Ash trees generally respond well to such reduction works.

The works will allow the tree to be in scale with its surroundings.

Recommendation

No Objection
