Site

The 13 Leylandii trees are situated in the rear garden of the property. They are not publicly visible.

A site visit was not deemed necessary to determine the appropriateness of the proposed works.

Due to the minor nature of the proposed works and the level of detail submitted in support of the notification, a site visit was not deemed necessary to determine the appropriateness of the proposed works.

The location is also within the Conservation Area. This protects every tree with a diameter at breast height (taken at 1.5m) >75mm.

Proposal

Tree works proposed.

T1) Leylandii x 13 - Reduce height by 2 to 3m and width by 1m.

Issues

I hold no objections or issues to the above proposal.

The specification is within good arboricultural standard practice and husbandry.

The proposed works will allow for the screening Leylandii to be more easily managed as a hedge and kept in scale with its surroundings.

Recommendation

No Objection
