Hornsey Planning

Re HGV/2024/0466
157-159 Hornsey Park Road

I am writing as a neighbour to state my objections to this development.

- 1) there is too much dense development in this street. We have been disturbed for many years by the Clarendon development and the disruption continues.
- 2) This will entail a further loss of skyline and trees contributing to further air pollution + overcrowding.
- 3) We have long campaigned about the miserable and unsafe level of traffic on Hornsey Park Road. This is an opportunity to reduce traffic on Hornsey Park Road by making site access through ~~Brock Road~~ Road, which is not a residential area.

Yours sincerely

P.S. I was unable to access to response on the planning website
