23 Hillside BIA C220251		3 April 2022
Site		3 April 2022
PR merged		3 April 2022
Proposed Basement Construction Methodology - EX24_079_03 - 23 Hillside Road, London, N15 6LU	Proposed Basement Construction Methodology	27 March 2024

Robbie McNaugher

Robbie McNaugher
Head of Development Management and Planning Enforcement
Planning Service

Conditions: (4)

- 1** The development to which this permission relates must be begun no later than three years from the date of this decision notice, failing which the permission shall be of no effect.

Reason: This condition is imposed by virtue of Section 91 of the Town and Country Planning Act 1990 and to prevent the accumulation of unimplemented planning permissions.

- 2** The development hereby permitted shall be carried out in complete accordance with the approved plans and drawings listed in this decision notice, other than where those details are altered pursuant to the conditions of this planning permission.

Reason: For the avoidance of doubt and in the interests of proper planning.

- 3** The external materials to be used for the proposed basement bay windows shall match in colour, width, pane pattern etc of those of the upper floors of the existing building.

Reason: In order to ensure a satisfactory appearance for the proposed development, to safeguard the visual amenity of neighbouring properties and the appearance of the locality consistent with Policy D3 of the London Plan 2021, Policy SP11 of the Haringey Local Plan 2017 and Policy DM1 of The Development Management DPD 2017.

- 4** No development of the basement shall commence until a Chartered Civil Engineer (MICE) or Chartered Structural Engineer (MI Struct.E) has been appointed to supervise the construction works throughout their duration and their appointment confirmed in writing to the Local Planning Authority. In the event that the appointed engineer ceases to perform that role for whatever reason before the construction works are completed those works will cease until a replacement-chartered engineer of the afore-described qualification has been appointed to supervise their completion and their appointment confirmed in writing to the Local Planning Authority. At no time shall any construction work take place unless an engineer is at that time currently appointed and their appointment has been notified to this Authority in accordance with this condition.

Reason: The details are considered to be material to the acceptability of the proposal, and for safeguarding the amenity of neighbouring to safeguard the amenities of neighbouring occupiers and the general locality.

Informatives:

INFORMATIVE: Hours of Construction Work

The applicant is advised that under the Control of Pollution Act 1974, construction work which will be audible at the site boundary will be restricted to the following hours:-

8.00am - 6.00pm Monday to Friday

8.00am - 1.00pm Saturday

and not at all on Sundays and Bank Holidays.

INFORMATIVE: Party Wall Act

The applicant's attention is drawn to the Party Wall Act 1996 which sets out requirements for notice to be given to relevant adjoining owners of intended works on a shared wall, on a boundary or if excavations are to be carried out near a neighbouring building.

INFORMATIVE: Land Ownership

The applicant is advised that this planning permission does not convey the right to enter onto or build on land not within his ownership.

Informatives for Thames Water:

- If it is planned that the mains water would be used for construction purposes, it's important Thames Water are informed prior to using it, to avoid potential fines for improper usage. More information and how to apply can be found online at thameswater.co.uk/buildingwater.
- A Groundwater Risk Management Permit from Thames Water will be required for discharging groundwater into a public sewer. Any discharge made without a permit is deemed illegal and may result in prosecution under the provisions of the Water Industry Act 1991. It would be expected that the developer demonstrates what measures they will undertake to minimise groundwater discharges into the public sewer. Permit enquiries should be directed to Thames Water's Risk Management Team by telephoning 020 3577 9483 or by emailing trade.effluent@thameswater.co.uk. Application forms should be completed on line via www.thameswater.co.uk. Please refer to the Wholesale; Business customers; Groundwater discharges section.
- Management of surface water from new developments should follow Policy SI 13 Sustainable drainage of the London Plan 2021. Where the developer proposes to discharge to a public sewer, prior approval from Thames Water Developer Services will be required. Should further information be required please refer to our website. <https://developers.thameswater.co.uk/Developing-a-large-site/Apply-and-pay-for-services/Wastewater-services>. Any discharge made without a permit is deemed illegal and may result in prosecution under the provisions of the Water Industry Act 1991. We would expect the developer to

demonstrate what measures will be undertaken to minimise groundwater discharges into the public sewer. Permit enquiries should be directed to Thames Water's Risk Management Team by telephoning 02035779483 or by emailing trade.effluent@thameswater.co.uk. Application forms should be completed on line via www.thameswater.co.uk. Please refer to the Wholesale; Business customers; Groundwater discharges section.

- The proposed development is located within 15m of Thames Waters underground assets, as such the development could cause the assets to fail if appropriate measures are not taken. Please read our guide 'working near our assets' to ensure your workings are in line with the necessary processes you need to follow if you're considering working above or near our pipes or other structures. [https://developers.thameswater.co.uk/Developing-a-large-site/Planning\[1\]your-development/Working-near-or-diverting-our-pipes](https://developers.thameswater.co.uk/Developing-a-large-site/Planning[1]your-development/Working-near-or-diverting-our-pipes). Should you require further information please contact Thames Water. Email: developer.services@thameswater.co.uk.
- Thames Water will aim to provide customers with a minimum pressure of 10m head (approx 1 bar) and a flow rate of 9 litres/minute at the point where it leaves Thames Waters pipes. The developer should take account of this minimum pressure in the design of the proposed development.
- It is advised that the development boundary falls within a Source Protection Zone for groundwater abstraction. These zones may be at particular risk from polluting activities on or below the land surface. To prevent pollution, the Environment Agency and Thames Water (or other local water undertaker) will use a tiered, risk-based approach to regulate activities that may impact groundwater resources. The applicant is encouraged to read the Environment Agency's approach to groundwater protection (available at [https://www.gov.uk/government/publications/groundwater-protection-position\[1\]statements](https://www.gov.uk/government/publications/groundwater-protection-position[1]statements)) and may wish to discuss the implication for their development with a suitably qualified environmental consultant.

- 1 You can find advice in regard to your rights of appeal at:
<https://www.gov.uk/appeal-householder-planning-decision>
- 2 This notice relates solely to a planning decision and does not purport to convey any approval or consent which may be required under the Building Regulations or any other statutory purpose.
If you intend to submit an appeal that you would like examined by inquiry then you must notify the Local Planning Authority and Planning Inspectorate (inquiryappeals@planninginspectorate.gov.uk) at least 10 days before submitting the appeal.
- 3 For more information about making a Building Regulations application, please contact Haringey Council Building Control Team by email building.control@haringey.gov.uk, telephone 020 8489 5504, or see our website at

www.haringey.gov.uk/buildingcontrol.
