RE: Planning Application - Coolhurst Tennis & Squash Club

I am writing this letter in support of the installation of new LED floodlights at Coolhurst Tennis & Squash Club.

The proposed new set of floodlights on the newly resurfaced artificial grass court will allow for the club to offer further playing opportunities increasing court usage time by 30% when compared to unlit courts. The existing floodlight courts are currently fully booked throughout the winter period and therefor justifies the additional need for floodlit courts.

The new floodlights will not only allow for further playing time but will also be a cost efficient and environmentally sustainable lighting solution. This coupled with the resurfaced court surface will create a porous all weather surface court, that is and easy to care for when being used by members and non-members alike.

This letter is an indication of the LTA's support of the proposed development at Coolhurst Tennis & Squash Club.

If you require any additional information, please contact me.

Sincerely,

Shane McCullough
