Proposal	T1: Beech (14m): Crown thin by 30% to allow more light into the garden T2: Lime (6m): Re-pollard to previous points removing 2m of re-growth to keep tree at a size suitable for its location and as part of regular maintenance.

RECOMMENDATION:	No Objection	
Application date	12/03/2024	
Tree Inspector	DM	Date: 18 th April 2024

Site

The trees T1 Beech & T2 Lime, as marked on the plan and seen in the photographs are situated in the rear garden of the property. They are not publicly visible.

A site visit was not deemed necessary to determine the appropriateness of the proposed works.

The location is also within the Fortis Green Conservation Area. This protects every tree with a diameter at breast height (taken at 1.5m) >75mm.

Proposal

Tree works proposed.

T1: Beech (14m): Crown thin by 30% to allow more light into the garden

T2: Lime (6m): Re-pollard to previous points removing 2m of re-growth to keep tree at a size suitable for its location and as part of regular maintenance.

Issues

I hold no objections to the proposed reasonable works.

The specification is within good arboricultural practice and husbandry. From the photograph the Beech appears to be a past reduction.

The re pollarding of the Lime is standard practice.

Recommendation

No Objection
