A site visit was not deemed necessary to determine the appropriateness of the proposed works.

The location is also within the St Anns Conservation Area. This protects every tree with a diameter at breast height (taken at 1.5m) >75mm.

T1 Betula pendula (Silver Birch) - reduce back from structure

(Please note that all other tree works listed for this application are exempt)

Issues

I hold no objections to the reasonable proposed pruning works to pull back from the structure.

The specification is with standard good arboricultural practice and husbandry.
