Site

The Ash tree T1, as seen in the photograph, is situated in the rear garden of the property. It is not publicly visible.

A site visit was not deemed necessary to determine the appropriateness of the proposed works.

The location is also within the Fortis Conservation Area. This protects every tree with a diameter at breast height (taken at 1.5m) >75mm.

Proposal

Tree works proposed.

Issues

I hold no objections to the proposed pruning works to the Ash tree T1 under a Five- Day Notice.

It is clear from the photograph that the tree has split out at the union losing a major scaffold and decay is present.

The reduction works will balance the tree and the proposed management will allow for its retention.

Recommendation

No Objection
