Site

The various trees, as listed above, marked on the plan, and seen in the photographs, are situated in the front and rear garden of the property. They are not publicly visible to the rear.

A site visit was not deemed necessary to determine the appropriateness of the proposed works.

The location is also within the Muswell Hill Conservation Area. This protects every tree with a diameter at breast height (taken at 1.5m) >75mm.

Proposal

Tree works proposed.

T1 Lime - Re-Pollard - not exceeding previous reduction points (Reduction amount 3.5m)

T2 Lime - Re- pollard - not exceeding previous reduction points (Reduction amount 3.5m)

T3 Elder (self seeded) - Fell to ground level - Tree is approx 6m tall and is in an inappropriate location causing damage to a wall.

T4 Mulberry - Crown reduce by 2m back to previous points of reduction. 1 x Heavily decayed limb on the southern side reduce by 4m.

Issues

I hold no objections to the reasonable proposed pruning works.

The specification is within good standard arboricultural practice and husbandry.

The works to the Limes are repeat reductions to high pollards. Limes generally respond well to such management.

Recommendation

No Objection

Informative: There is a duty under Section 213 of the Town and Country Planning Act 1990 (as amended) to plant replacement trees for the removal of trees, and also dead, dying or dangerous.
