Site

The two Sycamore trees, as listed above, marked on the plan, and seen in the photographs are situated in the rear garden of the property. They are not publicly visible.

A site visit was not deemed necessary to determine the appropriateness of the proposed works.

The location is also within the Highgate Conservation Area. This protects every tree with a diameter at breast height (taken at 1.5m) >75mm.

Proposal

Tree works proposed.

There are two sycamore trees at the back of the property that need to be reduced by around 2-3 meters as there is a lot of movement and they are growing into the neighbours garden.

Issues

I hold no objections to the reasonable proposed pruning works.

The specification is within good arboricultural practice and husbandry.

Sycamore trees generally respond well to such reductions.

Recommendation

No Objection
