Site

The Cypress trees G1, as marked on the plan, and seen in the photograph are situated in the rear garden of the property. They are not publicly visible.

A site visit was not deemed necessary to determine the appropriateness of the proposed works.

The location is also within the Alexandra Palace Conservation Area. This protects every tree with a diameter at breast height (taken at 1.5m) >75mm.

Proposal

Tree works proposed.

G1-Group of Cypress trees- (12m)-reduce height by approximately one third (4M). Prune back garden side whilst keeping live foliage.

Issues

I hold no objections to the reasonable proposed standard pruning works.

The Cypress trees generally respond well to such reduction works, allows for the screen to remain, and can be managed easier in the future.

Recommendation

No Objection
