Site

The Birch tree, as shown in the photograph and marked on the plan, is situated in the rear garden of the property. It is not publicly visible.

A site visit was not deemed necessary to determine the appropriateness of the proposed works.

The location is also within the Crouch End Conservation Area. This protects every tree with a diameter at breast height (taken at 1.5m) >75mm.

Proposal

Tree works proposed.

Birch - Crown reduce height and spread back to previous reduction points (approx. 0.6m height and 0.5m spread

Crown thin by 15-20%

Maintenance works in line with good arboricultural practice

Issues

I hold no objections to the repeat works to prune back to the most recent previous pruning points. The tree has been reduced before and restored its crown.

The tree is close to the structure.

Recommendation

No Objection
