Site

The Robinia tree, as seen in the photograph and marked on the plan, is situated in the rear garden of the property. It is not publicly visible.

A site visit was not deemed necessary to determine the appropriateness of the proposed works.

The location is also within the Tottenham Conservation Area. This protects every tree with a diameter at breast height (taken at 1.5m) >75mm.

Proposal

Tree works proposed.

Removal of robinia to rear of garden

Small v shaped garden with a mature birch already in situ

Robinia poorly positioned.

Issues

I hold no objections to the removal of the small/ medium Robinia tree.

The tree is not worthy of a Tree Preservation Order (TPO) when carrying out a methodology to rate its worthiness for a TPO.

The tree does provide a screen to the rear boundary, however there is a Birch and succession occurring. The Laurel will also fill the area.

The applicant intends to re plant with a more suitable species.

Recommendation

No Objection

Informative: There is a duty under Section 213 of the Town and Country Planning Act 1990 (as amended) to plant replacement trees for the removal of trees, and also dead, dying or dangerous.
