

PROTECTED TREE REPORT (TREE WORKS)

Haringey Council, L4,
Alexandra House, Station
Road, N22 7TY

Application number	HGY/2024/0712
Application type	Tree Preservation Order application
Site Address:	18 Coolhurst Road, Hornsey, London, N8 8EL
Proposal	Works to tree protected by a TPO. Yew (T1): Reduce all round by 2-3m All prescribed treatment to protect the health and stability of trees to be retained on the site, and to ensure that a satisfactory standard of visual amenity is provided and maintained. All specified work is within good arboricultural practice and husbandry. (Please note that works to Willow (T2) will be considered under application reference HGY/2024/0713, as the tree is not protected by a TPO but is located within a Conservation Area).

RECOMMENDATION:	Objection	
Application date	14/03/2024	
Tree Inspector	DM	Date: 15 th May 2024

Site

The mature large Yew *Taxus* spp. tree T1, as marked on the plan and seen in the photographs (see also below), is situated in the front garden of the property. It is publicly visible.

A site visit was deemed necessary to determine the appropriateness of the proposed works (24/04/2024 at approximately 1:20pm).

The tree protected by a Tree Preservation Order (TPO)

Proposal

Tree works proposed.

Works to tree protected by a TPO.

Yew (T1): Reduce all round by 2-3m

All prescribed treatment to protect the health and stability of trees to be retained on the site, and to ensure that a satisfactory standard of visual amenity is provided and maintained. All specified work is within good arboricultural practice and husbandry.

(Please note that works to Willow (T2) will be considered under application reference HGY/2024/0713, as the tree is not protected by a TPO but is located within a Conservation Area).

Issues

I object to the proposed pruning works as stated above within the specification.

There are many fine large mature trees (deciduous and evergreen) within the vicinity that add to the silva, amenity, all year-round interest, treescape, and character of the area including two large Yew trees opposite.

T1 has not had an overall reduction. There is some lower crown past works and pulling back from the structure.

At the time of inspection, the tree appeared to be in a fair condition.

There is also current adequate clearance from the structure.

The three Yew trees when viewed on approach complement each other and are in scale with the road and as such no tree works are seen as necessary.
