Site

The Maple *Acer* spp. tree T1 as marked on the sketch plan and seen in the photograph, is situated in the rear garden of the property. It is not publicly visible.

A site visit was not deemed necessary to determine the appropriateness of the proposed works.

The location is also within the Alexandra Park Conservation Area. This protects every tree with a diameter at breast height (taken at 1.5m) >75mm.

Proposal

Tree works proposed.

T1: Maple (8m): Re-pollard to previous points removing 3m of regrowth to keep tree at a size suitable for its location

Issues

I hold no objections to the repeat reasonable proposed pruning works to prune back to the most recent previous points.

The above specification is within standard common arboricultural practice and good husbandry.

Maple trees generally respond well from such pruning works.

Recommendation

No Objection
