Site

The Fir tree T1, as marked on the plan and seen in the photographs, is situated in the rear garden of the property. It is publicly visible between the structures.

A site visit was not deemed necessary to determine the appropriateness of the proposed works.

The location is also within the Highgate Conservation Area. This protects every tree with a diameter at breast height (taken at 1.5m) >75mm.

Proposal

Tree works proposed.

Remove lowest and longest 3 branches on fir tree (T1) that overhang the neighbours. Prune back upper overhanging branches, shaping it where possible to allow more light into surrounding gardens.

Issues

I hold no objections to the reasonable proposed pruning works.

The specification is minimal, sensitive, and will have no overall impact.

Recommendation

No Objection
