

PROTECTED TREE REPORT (TREE WORKS)

Haringey Council, L4,
Alexandra House, Station
Road N22 7TY

Scroll to page 2

Application number	HGY/2024/1024
Application type	Conservation Area Notification
Site Address:	St Marys Vicarage, Lansdowne Road, Tottenham, London, N17 9XE
Proposal	T1: Elm - Crown lift to a height of 4m from ground level T2: Oak - Reduce branches growing into cherry to give a clearance of 1.0 – 1.5m Remove deadwood from crown Remove small low branches Remove low branch growing toward vicarage T3: Large Cherry - Reduce branches growing towards church to give a clearance of 1.5m – 2.0m Remove deadwood from crown T4: Large Sycamore - Tight unions 2.0m above ground level with included bark Crown reduce height by 4.5 – 5m Crown reduce spread to balance and shape (approx. 3.5-4m) Remove dead ivy from trunk and crown T5: Lime - Reduce growth towards street light to give a clearance of 2.0m Remove deadwood T6: Lime - Reduce growth towards street light to give a clearance of 2.0m Remove deadwood T7: Lime - Reduce growth towards building to give a clearance of 2.0m Remove deadwood Maintenance works in line with good arboricultural practice.

RECOMMENDATION:	No Objection	
Application date	11/04/2024	
Tree Inspector	DM	Date: 17 th May 2024

Site

The various trees, as listed above, marked on the plan, are situated in the rear grounds of the church. They are publicly visible from Liston Road.

A site visit was not deemed necessary to determine the appropriateness of the proposed works.

The location is also within the Northumberland Park Conservation Area. This protects every tree with a diameter at breast height (taken at 1.5m) >75mm.

Proposal

Tree works proposed.

T1: Elm - Crown lift to a height of 4m from ground level

T2: Oak - Reduce branches growing into cherry to give a clearance of 1.0 – 1.5m

- Remove deadwood from crown

- Remove small low branches

- Remove low branch growing toward vicarage

T3: Large Cherry - Reduce branches growing towards church to give a clearance of 1.5m – 2.0m

- Remove deadwood from crown

T4: Large Sycamore - Tight unions 2.0m above ground level with included bark

- Crown reduce height by 4.5 – 5m

- Crown reduce spread to balance and shape (approx. 3.5-4m)

- Remove dead ivy from trunk and crown

T5: Lime - Reduce growth towards street light to give a clearance of 2.0m

- Remove deadwood

T6: Lime - Reduce growth towards street light to give a clearance of 2.0m

- Remove deadwood

T7: Lime - Reduce growth towards building to give a clearance of 2.0m

- Remove deadwood

Maintenance works in line with good arboricultural practice.

Issues

I hold no objections to the proposed pruning works that have been highlighted from a condition survey.

The reduction to the Sycamore T4 is slightly heavier than normal due to the tree being trifurcated at the break with a tight included convex union. The reduction will reduce the sail area and weight within the crown.

The remaining above specification is within standard good arboricultural practice and husbandry.

Recommendation

No Objection
