

1. The proposal will provide for a new home that provides accommodation for young adults with care needs. Care will be provided by a live-in carer who stays in the property. This will enable the residents to live in a normal domestic environment, where they are encouraged back into mainstream society and live as a normal family. As a result of these living arrangements, it is considered that the property would constitute a single household and therefore falls within Class C3(b). Further details can be found on the supporting statement page 2-3.
2. The proposal is for use as a residential home for no more than 3 people + carer living together as a single household.

3 persons

1 carer

Total Household 4 people

The total number of residents and carers will not **exceed 4**.

3. Range of needs
Services are based on individual needs and environments can be adapted to suit each individual. Our team has extensive experience supporting individual needs including:

- People with physical disabilities
- People with sensory loss, including those with dual sensory impairment
- People with mental health problems including forensic mental health
- People with Autism Spectrum Disorder
- People with complex needs care
- People with learning disabilities

4. Age range of service users

People aged 18 years and older.

Gender

We support male, female and non-binary service users.

5. Working pattern/rota

There will always be a care worker present at the property. The care team work in shifts organised by the care manager.

We will be operating on a rotating basis. During the night we will have one carer at a time to supervise. During the day there will be two support workers on shift. Staff will be operating from 0730 to 1930. 1930-0730.

12-Hour Shifts: care workers will work longer shifts but fewer days per week.

This will provide continuity of care for patients.
