Subject: RE: Bruce castle wall - brick selection

Hello Gary,
agree, these bricks seem a very good match indeed and are supported.
Please provide related material specifications and the photos of the material samples as an addendum to the pending application to Kwaku and we will take things from there.
Is there anything else you are keen on agreeing as part of the main consent?

Kind Regards,
Elisabetta

Subject: Bruce castle wall - brick selection

Application No: HGY/2024/0430

Proposal: Repair and rebuild the West Boundary Wall and install new gates on south elevation wall

Dear Elisabetta

Attached are photos of the sample bricks from Bulmer's Bricks and tiles
These are hand made bricks and will be made to size match the existing.
the texture, colour range and imperfections are a good match too the existing as revealed by the photos attached.

These bricks are on at least an 18 week lead time - the plan therefore is to order brick prior to commencement of works which is essential if we are to undertake any work this year

Could you approve this brick selection with the current LBC application rather than set a condition

I can bring samples in photo to site if you would like to see them in reality.

Kind regards Gary
