

PROTECTED TREE REPORT (TREE WORKS)

Haringey Council, L4,
Alexandra House, Station
Road N22 7TY

Application number	HGY/2024/0569
Application type	Conservation Area Notification
Site Address:	53 Grove Avenue Hornsey London N10 2AL
Proposal	T1 eucalyptus - fell and treat stump. The client is worried about the angle that the tree is growing, it is starting to damage a retaining wall and it's growing extremely quickly.

RECOMMENDATION:	No Objection	
Application date	04/03/2024	
Tree Inspector	DM	Date: 31 st May 2024

Site

The Eucalyptus tree T1, as marked on the plan and seen in the photographs, is situated in the rear garden of the property. It is partially publicly visible between the structures from street level.

A site visit was deemed necessary to determine the appropriateness of the proposed works (29/05/2024 at approximately 10:50am).

The location is also within the Alexandra Park Conservation Area. This protects every tree with a diameter at breast height (taken at 1.5m) >75mm.

Proposal

Tree works proposed.

T1 eucalyptus - fell and treat stump. The client is worried about the angle that the tree is growing, it is starting to damage a retaining wall and it's growing extremely quickly.

Issues

I met the resident 29th May 2024.

They are actually fond of the young Eucalyptus tree and just concerned by the 20 degree lean. A leaning tree is not necessarily a defective tree.

At the time of inspection, the tree appeared to be in a reasonable condition.

It was agreed that rather than remove the Eucalyptus tree could be reduced approximately 10ft above the fork.

Eucalyptus trees generally respond well to crown reductions.

Recommendation

No Objection
