Site

The trees as listed above, marked on the plan, and seen in the photograph, are situated in the rear garden of the property. They are not publicly visible.

A site visit was not deemed necessary to determine the appropriateness of the proposed works.

The trees are protected by a Tree Preservation Order (TPO)

Proposal

Tree works proposed.

T1: Sycamore (14m): Re-pollard to previous points removing 2m of re-growth to keep tree at a size suitable for its location and as part of regular maintenance

T2: Sycamore (14m): Re-pollard to previous points removing 2m of re-growth to keep tree at a size suitable for its location and as part of regular maintenance

T3: Lime (14m): Re-pollard to previous points removing 2m of re-growth to keep tree at a size suitable for its location and as part of regular maintenance.

Issues

I hold no objections to the reasonable repeat proposed pruning works to reduce back to the most recent previous.

Once reduced like this (high pollards) the re growth forms weak attachments that eventually exclude one another. This can lead to larger future poles popping out and failing.

The specification is with standard good arboricultural practice and husbandry.

Recommendation

No Objection
