RECOMMENDATION

Approve

APPROVED DEVELOPMENT

HGY/2022/0752 – Full planning application for the erection of 272 homes including 50% socially rented homes extending 4-13 storeys, 174sqm of flexible Use Class E floorspace along with a new vehicular access to the site, car parking and two pedestrian north south routes. The proposal also includes both private and public hard and soft landscaping throughout the site – As approved on: 31st August 2022.

ANALYSIS/ASSESSMENT

Condition 38 reads:

‘Prior to the commencement of above ground works for the development hereby approved details of evacuation lifts for each block shall be submitted to the Local Planning Authority for its written approval. Once approved works shall be implemented in accordance with the approved details and retained as such thereafter.’

Reason: In accordance with the requirements of Policy D5 of the London Plan 2021..’

These details have been assessed in consultation with Haringey’s Building Control Officers who consider them sufficient to warrant the discharge of condition 38 in relation to the parent application HG/2022/0752. Comments have been received and are detailed in full below:

Further to your recent e-mails regarding conditions 29 and 38 attached to planning permission HGY/2022/0752 for the erection of 272 homes extending 4-13 storeys, 174sqm of flexible Use Class E floorspace and associated works, information relating to the construction stage fire strategy and the evacuation lifts has been submitted to this office, and is currently being checked under the Building Control process. Therefore, in my view, these items can be discharged as planning conditions.

The applicants and LBH Building Control have confirmed that the relevant information has been submitted to LBH Building Control and that the relevant fire safety measures will be considered forthwith.

An informative has been added stating that any revisions to the scheme which takes place under any consent given by BC will require a further submission to again discharge condition 38.

The submitted information, considered by officers alongside the comments received from LBH's internal consultees is deemed to be sufficient to warrant the discharge of this condition in full.

RECOMMENDATION

GRANT DISCHARGE OF CONDITION 38

It is considered that sufficient information has been submitted in support of this application to discharge condition 38.

Informatives:

The Applicant is advised that this scheme requires appropriate Building Control consent. Should any further details be approved by Building Control which is different to the details submitted as part of this discharge of condition consent then a revised application to discharge condition 38 must be submitted for consideration and approval.
