

- Note:
- All tree stock to be selected 'within the field' by project landscape architect to ensure quality and consistency. LA to have minimum 3 weeks notice of nursery visit.
 - All trees and plant stock to be from a reputable nursery, LA to inspect sample selection of shrub and herbaceous stock in nursery.
 - Defects periods to be instructed for planting works to ensure replacement of dead/dying plant stock (with specimens which conform to original specification) within the subsequent planting season. Defects periods recommended: Minimum three-year period for tree planting, minimum one year period for shrub/herbaceous planting and lawn areas.
 - Any plant supports and guying to be checked and replaced as required within defects period.
 - All planting works to conform to BS 4428:1989: Code of Practice for General Landscape Operations (Excluding Hard Surfaces).
 - All maintenance operations to conform to BS 7370:1993 Part 4 1993: Grounds maintenance. Recommendations for maintenance of soft landscape (other than Amenity Turf).
 - All imported topsoil and topsoil storage to conform with BS 3882:2007: Specification for topsoil and requirements for use. Topsoil depths to be minimum 200mm for lawn seeding, 300mm for shrub and herbaceous planting and 300mm-400mm top soil and 400mm subsoil for tree planting.
 - Sub-soils to be well ripped/recompacted prior to incorporation of topsoil to ensure adequate drainage for planting to thrive, particularly for areas of free planting.
 - Trees to have clear area of mulch gravel (0.75m diameter) surrounding trunk, without planting.
 - Plan and schedules to be read in conjunction with landscape outline specification.
