Submission: Objection
Comments: I strongly object to the overdevelopment of 103-107 North Hill.

My main concerns are :

The proposed development is significantly larger, taller and bulkier than the current building on the site, and this is unacceptable in a conservation area.

The development will lead to increased traffic and pressure on parking in the area.

Already many cars are parked on either side of View Road and heavy traffic on view Road make driving for elderly residents in this area very difficult. The additional traffic resulting from this development will make the situation worse and very likely will lead to accidents.

Therefore I strongly object to the overdevelopment on this site and urge the council to refuse permission in this current form.
