

High quality projecting fascia sign to front of building.

Materials aluminium and stainless, with black background and chrome letters to match surroundings. Height from ground to base 3.2 meters, width 2.0 meters, projecting to max 3.5 inches, height 0.7 meters.

Sign chosen by immediate neighbours. All immediate neighbours at

141,145,139,137,147,133 and 131 Durnsford Road N11 were consulted and no neighbour has any objection.

Opposite the premises is Sunshine Garden Centre who have a sign measuring approx 4 meters in width by 0.5 meter in height which is illuminated externally. The sign I am proposing is much smaller than the sign at the garden centre in dimension.
