Design and access statement

The development simply consists of the replacement of the removed plastic panelled canopy on a light timber frame with the original canvas retractable canopy, in order to comply with a notice served by the council so as to reinstate the original retractable canopy which was there many years and formed part of the shop front For over 20 years.

Below are some photos before and after the canopy was installed and shows other canopies in the area

Photos

The new canopy

1) The taken down canopy

2) The Taken down canopy from inside.

3) Canopy on buildings opposite

4) Free standing canopy on next corner down

All these canopies including the application one are simple temporary structures.
