Submission: Objection
Comments: Please inform me of the outcome of this application.

I thoroughly object to this planning application especially because of the effect it will have to the immediate environment (the nature reserves, reservoirs, etc), the capacity on the transport system and the well being of the residents in this area.

I have lived here 6 years and there has been construction ever since and we're horrified to find out that yet more would be taking place. We simply cannot take it anymore especially to find out that it will be on a piece of land we live opposite from. Everyday since we moved in has been a nightmare with so much noise pollution we have no peace especially on weekends.

This will affect the beautiful nature reserves we have around us even more.

Tottenham Hale and the Victoria Line is already so overcrowded and adding more people to the mix will make it more of a nightmare for us. We simply won't be able to cope especially with more buildings being built in Blackhorse Road etc.

We have also lost sunlight from the various buildings that have popped up over the years and this new building will do the same.

I request that this not go ahead. I feel that this area is already overwhelmed we are fit to burst and you will be pushing the locals out of this area. We don't even have enough amenities in the area for the locals who have been here for years.
