Submission: Objection

Comments: Significant river pollution has been incurred as a consequence of the current ongoing works- to the point where it has turned the river water brown. The noise pollution is unbearable as a result of residents already living on a building society- causing personal injury, exacerbated by the working from home arrangements currently in place. The enjoyment of property already diminished as a result of all of the building which has taken away all the green and views that residents bought their property to enjoy. Its an over population of an area where there are no shopping or leisure facilities to enjoy- particularly if the retail park is also demolished. More block building will lead to over congestion on transport links and more crime.
