Submission: Objection

Comments: As with the previous 3-4 applications for this development, I object to this planning application. In particular I object to the resurfacing of Abbotts Terrace which is solely to allow access for heavy construction vehicles for the huge excavation for the development. The back lane is completely unsuitable for construction vehicles with very narrow access. It would be intolerable for the houses at the start of Abbotts Terrace whose doors open directly onto the lane, and if resurfacing took place they would no doubt have to live with large vehicles from other developments for years to come. Abbotts Terrace is also a haven for wildlife with many established habitats, resurfacing would alter the character of this lane detrimentally.
