Planning Application Ref : HGY/ 2020/ 1826

OBJECTION

This planning application is almost a repeat of several previous applications which have all been refused both by the local council and the appeal board .The difference is the installation of lights along the lane and resurfacing both of which do nothing to enhance the area.

This site is not a suitable area for this proposed building and is a great distance from the highway which causes many problems

Abbots Terrace and the "Back Lane " are narrow and the addition of lighting and PP50 pavers will diminish the width

The loss of wildlife in a Conservation Area would be extremely damaging

The character of this very old lane would be lost

This is a valuable open space enjoyed by many many local people and is treasured

This application should be rejected and this site left alone

Mr R Brady
