Submission: Objection

Comments: I object to this proposed development. This is the 9th time this application has been made dating back to 2007 and the 5th by this applicant since 2016. With the increase in dwellings and grabs for essential amenity land in the area reasons for objections become stronger. The land doesn't have a street Frontage because the area was not designed for a building. Such a building would have service and access problems, look totally out of place and be detrimental to the local environment.

I have lived in Cecile Park for 47 years and the lane it would front, is an unspoiled tranquil piece of land in a busy metropolis, a bit of countryside. We need to preserve spaces like this to give us breathing space. Allow one dwelling and then there will be another and soon the lane will be metalled, lit up and it's peace and tranquillity will be lost. The lane is a common garden enjoyed by those who live around it including the sensible dog walkers who use it. It should remain as such for the benefit of all.

Roger Hayman Director, Cecile Park Residents Ltd. (Management company for 2-4 Cecile Park)
