Submission: Objection

Comments: I object to this development on the following grounds:

It would seriously impact on the privacy of those in neighbouring properties and reduce their enjoyment of their gardens.

The removal of trees and green space will have a detrimental effect on local wildlife as the proposal would remove a number of trees and much of the green space which is currently supporting birds and local wildlife.

I believe this application fails to address the issues which have previously resulted in this backland development being refused twice in the past and introduces new issues regarding excavation for the lower ground floor.
