Submission: Objection

Comments: Whilst appreciating the need for more social housing in Haringey, this slightly revised proposal is still far from being fit for purpose.. The structure of the 2 winged Building A alone is both extremely ugly, far too high and not at all in keeping with the architecture of the immediate surroundings .

The impact of 41 new homes on the immediate area will cause both major traffic congestion and huge parking problems; the proposed 4 parking spaces is both totally inadequate and completely unrealistic.

The whole locality will become a dangerous threat for everyone, but particularly for the nearby school children and the elderly.

The entire concept needs to be revised.
