Submission: Objection

Comments: Building A should be the same height as Building B.

Building C should be the same height as the existing terrace.

All the properties should be social housing.

Parking arrangements are wholly inadequate for the number of properties and the location. And what about "visitors" of all kinds with cars/vans? This is already a heavily over-parked area at the junction of two major roads.

There is no possibility of forecasting how many residents will have cars. Can the properties be allocated only to those who do not have cars?

Local services (doctors, dentists, schools) will be overwhelmed.
