Proprietary bronze PPC aluminium system, glazed door

22. WINDOWHEAD TREATMENT
Painted Concrete : white shades

A photograph of the Jane Street Apartments, a modern brick building. The facade is made of reddish-brown bricks. A large, dark-framed window is centered on the upper floor, with a black metal balcony railing in front of it. To the left, another window is partially visible. Below the main window, there is a recessed entrance area with a dark door and a small, square, yellow light fixture hanging from the ceiling. To the right of the entrance, a white, dome-shaped outdoor light fixture is mounted on the wall. The building is situated in an urban environment, with other buildings and a street sign visible in the background.

Brick type 1 - red shades

Brick type 2 - grey shades

Bronze coloured standing seam panel

Proprietary bronze PPC aluminium glazing system

Except for Planning purposes, figured dimensions only are to be taken from this drawing.
All dimensions are in millimetres unless otherwise stated.
All dimensions shall be checked on site prior to works commencing.
Any discrepancies shall be reported to the Architect.
