Thank you for your email on the above planning application.

Having reviewed the submitted Flood Risk Assessment and Drainage Strategy Report (Doc. Ref. 2220367-EWP-ZZ-XX-RP-C-0002 -P2), dated 16/12/22 in conjunction with the Technical Addendum Note (Doc. Ref. 2220367-EWP-ZZ-XX-TN-C-0001), prepared by elliottwood Partnership Ltd dated 18th April 2023, we have no further comments to make on the this application. We are content that the impact of surface water drainage has been addressed appropriately.

Hope this helps.

Thank you,

Pankit
