Details of the pre-application advice received

The proposal would retain a meaningful garden even with the existing tree being retained and therefore the proposal would not appear incongruous or at odds with the surrounding pattern of development.

The application would enhance the living quarters by means of allowing more natural light and adding floorspace. With this also means the dwelling would be more energy efficient by retaining heat effectively. The materials should be selected to match or enhance the existing.

The rear extension is of a height and depth that would be respectful to the adjoining in terms of amenity considerations, i.e. enclosure and conditions of daylight/sunlight, as the extension is stepped into the undulating site which runs west to east.

Authority Employee/Member

With respect to the Authority, is the applicant and/or agent one of the following:

- (a) a member of staff
- (b) an elected member
- (c) related to a member of staff
- (d) related to an elected member

It is an important principle of decision-making that the process is open and transparent.

For the purposes of this question, "related to" means related, by birth or otherwise, closely enough that a fair-minded and informed observer, having considered the facts, would conclude that there was bias on the part of the decision-maker in the Local Planning Authority.
