Dear Sirs,

The Hale, Tottenham Hale – Excavated Material Technical Note

Based on the geotechnical information from the conceptual site model outlined in the 1305-ACE-GEO-GA-001 – Ground Appraisal Report, the following volumes of material are expected to be exported from site. No material is expected to be imported.

Made ground = 1260 m³

Alluvium = 630 m³

Thames Gravel = 2610 m³

London Clay = 1200 m³

Total basement material = 5700 m³

The volumes have been calculated from the outside face of the contiguous piled retaining wall down to the underside of the basement foundations.

Yours faithfully

For and on behalf of
APEX CONSULTING ENGINEERS

Rebecca Neal MEng
Senior Structural Engineer
