Hi Kwaku,

Thank you for sending these through – the omission of the roof terrace is welcomed. I am still concerned about the proposed solar panels on top of the dormer. There is no set down from the existing ridge tiles and they would project upwards. If they would like solar panels on this part of the roof then they could use a solar roofing material, or set the dormer down in height.

Kind regards,

Ruth Mitchell

Hello Kwaku,

Here are the amended drawings following the comments from the conservation team.

Please note that the existing front elevation sash windows will be retained.

Let me know if this is sufficient to process this application.

Thanks
