

**EXTREMELY HIGH RISK
HEAD ON COLLISION**

**A: Proposed front door of family home.
B: Proposed front door of family home.**

In red arrows, I have shown where a car lost control travelling North on Archway Road into Bakers Lane (A1) and drove directly into the barrier in front of position 'B'. Incident 29th Septemeber, 2025. Vehicle collected their registration plate and drove off so it couldn't be reported to Metropolitan police. In fact, the front of the vehicle is still sitting there as Haringey Council do not maintain the cleanliness of traffic island due to safety.

This means that the proposed doors to two family homes are in the position of this collision. On the opposite side of Bakers Lane, private residences have recently being renovated but the front doors are set back behind walls to protect privacy and provide safety to residents.
